

SAGOLA

an Elcometer company

PROFESSIONAL PAINTING EQUIPMENTS FOR INDUSTRY

www.sagola.com

MADE IN
SPAIN

X4100 SERIES

The industrial SAGOLA spraygun par excellence
With a new design
Smaller, compact and lightweight
Maximum robustness. Minimum maintenance

Ideal for painting large areas with extreme finishing in sectors such as automotive, industrial vehicles and all types of industrial machinery. Anodized forged aluminum body. With no joints to manipulate when disassembling for through cleaning of the paint part. High transfer aircaps HVLP and EPA.

VERSION GRAVITY X4100

VERSION	CODE	APPLICATION
1.30 [96]	10142012	Fluid finishes, metallics, dyes
1.40 [96]	10142001	High quality finishes
2.20 [64S]	10142011	High viscosity products
1.40 [XT01]	10142005	General finishes
1.40 [XT03]	10142008	General finishes. Minimum mist
1.60 [XT03]	10142009	Finishes. High speed

X4100 SERIES

MADE IN SPAIN

VERSION PRESSURE X4100

Maximum speed, productivity and ease of application
High profitability in continuous painting

This tool gets a higher product transfer rate than conventional painting systems. It is the perfect spray gun for a high speed topcoats application. Capable to work with high paint flows. Solution for new generation paints, high solids, waterborne varnish and enamels.

VERSION	CODE	APPLICATION
1.20 [765]	10152402	Finishes and primers
1.40 [765]	10152403	Primers, basecoats
1.80 [20A]	10152406	Glues and adhesives
1.20 [XT01B]	10152409	Clearcoats and primers
1.00 [XT03]	10152406	High quality finishes. Basecoats, dyes
1.40 [3030]	10152412	Primers, basecoats. Minimum mist

VERSION SUCTION X4100

X4100 SERIES

Ideal for painting large areas, machinery and industrial vehicles
Extra deposit capacity
High speed of application

Suction system of our 4100 allows painting at right angles with the piece when painting bonnets, roofs, vehicles inside parts, trucks, chassis, trailers,...
Ideal for continuous work sessions and large surfaces. More comfortable painting and less tiredness due to the low gravity center.

VERSION	CODE	APPLICATION
1.40 [96]	10121001	High quality finishes
1.60S [96]	10121006	General finishes
1.80 [96]	10121003	Finishes and primers

3300 GTO

New 3300 GTO spraygun
High Quality. Versatile, light
Wide range of air caps, great versatility

Forged and anodized aluminum body. This is a top level product with a magnificent price-quality ratio.

Minimum maintenance. No gaskets between air and paint. High-end aluminium aircaps. High quality chromed-plating. Time and paint consumption saving.

Complying with the strictest standards on solvent emissions.

VERSION	CODE	APPLICATION
1.40 [EPA]	10141578	Finishes and dyes
1.60 [EPA]	10141579	General finishes
1.80 [EPA]	10141580	Primers
1.40 [HVLV]	10141575	Finishes and dyes

1.80 [HVLV]	10141577	Primers and basecoats

**Finish
MATTE
BODY**

Mini XTREME

Small and light, with perfect ergonomics
Perfect for retouching in vehicle production lines
Ideal for parts coating: wood, plastic and tannery products

It ensures the perfect air-paint ratio for every situation. Work with the correct fan pattern sizes without running the risk of overloading and wrong paint particle sizes. It reduces mist, saves paint and perfectly defines the work zone.

Fan patterns designed to obtain the best drying times with the finest finish, always with minimum pressures.

VERSION	CODE	APPLICATION
1.00 [miniEPA]	10111807	Retouching and feathering. Waterborne and solvent based basecoat
1.20 [miniEPA]	10111808	Clearcoats, UV paints. High finish quality
1.40 [miniHVLV]	10111805	Finishes and dyes
0.60 [miniTECH]	10111811	Primer for leather with low viscosity products
1.00 [miniTECH]	10111812	Lettering and small retouches

**VERSION
GRAVITY
XTREME**

Ideal for line-painting
Specially recommended for dyes and metallics
Top quality finishes

Due to its size it is the perfect spray gun for restricted access areas which require a lot of wrist movement.

It reduces mist, saves paint and perfectly defines the work zone.
